The Montana SBDC is partially funded under Cooperative Agreement No. SB-2M-00137-04. The support given by the U.S. Small Business Administration through such funding does not constitute an express or implied endorsement of any of the co-sponsor(s)' or participants' opinions, findings, conclusions, recommendations, products, or services.

The Montana Department of Commerce's Small Business Development Center has compiled this directory through direct contact, either by mail or telephone, with the companies included. This listing does not constitute an endorsement of any manufacturer by the SBDC or the Montana Department of Commerce. Neither the SBDC nor the Department of Commerce assumes any liability for any errors or omissions. The SBDC recommends you verify this information before initiating any business arrangement.

Reproduction of any part of this directory is prohibited without written permission from the Montana Department of Commerce.

Additional copies of this directory are available for $20. A DOS diskette is also available for $20. Send your check or money order to:

STAN STEPHENS
GOVERNOR

State of Montana
Office of the Governor
Helena, Montana 59620
406-444-3111

July 1991

I am pleased to introduce the second edition of the "Montana Manufacturers Directory." It has been updated to include a more comprehensive listing of Montana manufacturers, as well as new information on the number of persons employed by the respective firms. I know you will find this improved version a valuable resource to locate a wide variety of products and producers throughout Montana.

Montana is a state rich in resources with a growing economic diversity that is making us increasingly competitive on an international scale. This expanded publication reveals a wide variety of high quality products the state has to offer from processed foods to high technology equipment. Our extensive modern transportation network insures prompt and reliable deliveries anywhere in the world. Many of our companies are already competing favorably in both the national and international marketplaces.

This directory provides a wealth of information that can help to facilitate and improve business growth within our state. I encourage agents, retailers, wholesalers and manufacturers in Montana to use this directory as a resource guide to locate local sources of supply and manufacturing services for items they may now be purchasing or making out of state. Other companies from around the globe will hopefully use this directory as a source of "Made in Montana" products that are very competitive in price, quality, and service.

If you have any comments or questions concerning this publication, please feel free to contact my office or the Business Development Division at the Department of Commerce in Helena.

Sincerely,

Stan Stephens

FORWARD

I sincerely hope you will find this second edition of the "Montana Manufacturers Directory" useful. Many hours have gone into updating and revising our previous publication.

As Director of the Montana Department of Commerce, I am confident that this latest edition can be a valuable resource for companies and individuals wanting to do business with manufacturers in the state of Montana. This directory serves as a guide to a wide variety of products and manufacturing services available from around the state. The information in this directory is also available on computer diskette and can be ordered from the Business Development Division of the Department of Commerce.

As we are constantly striving to improve the materials and services provided through the Department of Commerce, I would appreciate it if you would notify us of any Montana manufacturers we may have overlooked, or of any corrections that need to be made in our next edition. Please write to the Business Development Division at our office in Helena, or call 444-3923. FAX messages can be sent to 444-2808.

I would also like to express my personal thanks to the many individuals, manufacturers, local Chambers of Commerce, and community development organizations that have helped to make these directories possible.

Sincerely,

Charles A. Brooke
Director

Big Opportunities

Big Ideas

Return on investment. You want it from your lifestyle as well as from your business. Montana has the essentials for both. In Montana...

...the sky's the limit!

MONTANA

Excellence in Education

Montana has an unwavering commitment to education, as exhibited by its history of high rankings in national comparisons of expenditures per pupil, graduation rates, adult literacy, and college entrance examination scores.

Our high school graduation rate of 87.3% far outstrips the 71.1% national average. Montana students consistently score well on college entrance exams; in 1989, the average Montana score ranked third in the nation. And special needs are met with innovative programs for both handicapped and gifted students.

Nearly 6,000 degrees are awarded each year by the state's institutions of higher education, with the largest number in business and management, education, and engineering. The quality of Montana's post-secondary system is evidenced by the state's production of Rhodes Scholars; more per capita than any other state.

Montana invests in the future.

Quality of Life

Snowcapped peaks. Pine forests and clear streams. Badlands and prairies where history was made. Quiet places to refresh the soul and lift the spirit.

Powder perfect downhill skiing at world-class resorts. Summer sailing, blue-ribbon trout fishing, or a challenging round of golf. Opera, concerts, art exhibits, and theatre productions to enrich your evenings.

Modern malls and vibrant, revitalized downtown areas. Exceptional housing in all styles and price ranges. Regional medical centers with state-of-the-art equipment. Low crime, low pollution, low cost of living. No traffic jams--no hassle.

You can't list these assets on the balance sheets, but they attract--and keep--the high caliber of managers and employees you need.

Montana--where quality is a way of life.

Abundant Resources

Montana industries pay substantially less for energy than do their competitors elsewhere, partially due to the state's abundance of low-cost hydroelectric power. Tenth lowest among the 48 contiguous states in fuel and electric energy costs per million BTU's, Montana offers low-cost natural gas for residential and commercial users and special incentive gas and electric rates for some industries. Six regulated power companies and 25 electric cooperatives serve the state.

Large reserves also exist to power Montana industries far into the future and provide jobs for Montana's workers in the state's coal mines, oil and gas fields, refineries, and power plants.

Montana has energy to spare.

Market Access

Strategically located at the crossroads of the West, Montana lies halfway between Minneapolis and the port cities of Seattle, Portland, and Vancouver--the midway between Denver and Edmonton.

More than 700 intrastate, interstate, and international motor carriers serve businesses on the state's modern and efficient highway network.

Rail transportation is reliable and accessible. Nearly 3,400 miles of track lead to markets in California, the Mississippi Valley, the Gulf Coast, Canada West, and coastal seaports. Intermodal and transloading facilities, the Port of Montana, and Foreign Trade Zone #88 make worldwide shipping to and from Montana easy and cost effective.

Four major trunk carriers and four regional airlines fly into 15 commercial airports. Another 109 public-use airports and numerous fixed-base operators and air taxi services meet general aviation needs.

Montana producers deliver.

Worker Productivity

Montana's most important economic resource is its people--hardworking, productive, innovative, adaptable, and still committed to a strong work ethic. There is a large pool of well-educated and skilled workers, dependable people with a "can do" attitude. Wherever Montanans are at work, they produce.

Montana's employers get their money's worth.

Big mountains, big resources, big opportunities, big ideas.

Technical Capacity

The technical help your business needs is close at hand in Montana. Assistance in financial packaging, marketing, international trade, licensing, and red-tape slashing comes from the Department of Commerce and other state agencies.

Universities, colleges, vocational technical centers, and other educational institutions offer research services, marketing and management consulting, employee training, engineering help in resolving production problems, and more.

There is a full range of private support services, too--precision machine shops, testing laboratories, computer software development, specialized consulting services, facilities for research, assembly, processing, and finishing.

"Made in Montana" is more than a label. It's a matter of pride.

Financial & Tax Incentives

Montana's tax climate is mild and hospitable. There is no sales or use tax. Research and development firms get preferential tax rates and tax holidays. The general corporate income tax rate of only 6.75% is well below the 45-state average of 7.5%. The 1989 Legislature drastically reduced the assessment rates applied to business machinery, equipment, furniture, and fixtures. Inventory and freeport merchandise are tax-exempt.

New business development and the expansion of existing firms are assisted through state loan, bonding, and near-equity investment programs. Tax incentives encourage private capital fund formation and investment. Reduced property tax assessments are available for qualifying new construction or remodeling.

Montana puts its money to work for business.

Committment to Growth

Visitors to Montana see and experience it as the quintessence of the great American West--colorful, historic, breathtaking.

But there is another Montana, blending the strength and perseverance of the Old West with the vision and vitality of the new. It is an outward-looking Montana, moving aggressively to increase its participation in the international marketplace. The business programs and incentives that Montana offers now are the result of the determination to build a balanced and strong economy for the benefit of not only today's Montanans, but also for generations to come. In Montana, the frontiers of technology and the spirit have been joined.

Montana is a land to match your ambitions.

Accessible State Government

In Montana, easy access to the Governor and other state government officials is a point of pride. It is the rule rather than the exception. For those who desire face-to-face meetings, personal appointments are easily made. The Governor and members of the administration also regularly visit businesses around the state.

And this openness is not limited to the Governor's office. Legislators and local government officials work closely with businesses to resolve problems or encourage expansion.

The state's Congressional delegation is similarly accessible. Most Montanans refer to delegation members by their first names, and letter and telephone inquiries receive quick responses.

In Montana, you count.

the sky's the limit!

Big Sky Basics

"Montana is a virtual paradise for people who love the outdoors or deplore urban compaction. The recreational opportunities are unlimited, the ugliness of city life is absent."

C. Dan Regan, Vice President
Montana Power Company
Butte, Montana

"Why live in a silicon valley when I can live in a real one?

Richard Hammen, Chairman
Chromotochem, Inc.
Missoula, Montana

"The labor market (in Montana) was my greatest concern. Now it's my greatest asset. I have more trained workers to choose from...and they are by far more industrious."

Ray Thompson, President
Semitool, Inc.
Kalispell, Montana

"Abundant supplies of unprocessed resources and lower cost of doing business combine for profitable bottom lines in Montana."

Ray Stauffer, Plant Manager
General Mills, Inc.
Sperry Mill
Great Falls, Montana

Geography

Size - 550 miles by 275 miles; 93 million acres total. *Highest point* - 12,799 feet. *Average elevation* - 3,400 feet.

Climate

Average rainfall - 15 inches. *Average temperature* - January, 28 degrees; July, 84.5 degrees.

Population

Total 1990 population - 799,065. *Largest communities* (1990) - Yellowstone County (Billings), 113,419; Missoula County (Missoula), 78,687; Cascade County (Great Falls), 77,691; Flathead County (Kalispell), 59,218; Gallatin County (Bozeman), 50,436; Lewis & Clark County (Helena), 47,495; and Butte /Silver Bow (Butte), 33,941.

Economic Activity

Total 1988 employment - 410,294. *Distribution by industry* (1988) - agriculture, 9.0%; mining, 1.8%; construction, 4.8%; manufacturing, 5.9%; transportation, communication, and utilities, 5.8%; wholesale and retail trade, 21.9%; finance, insurance, and real estate, 6.4%; services, 26.0%; government, 18.5%.

Financial Resources

Number of banks - 171; total resources (1989) - $7.5 billion. *Savings and loans* - 10; total assets - $1.1 billion. *Credit unions* - 103; total assets - $763 million.

Communications

Newspapers - 75 (11 dailies). *Television* - 17 stations. *Radio (AM)* - 50 stations. *Radio (FM)* - 52 stations. *Telephone* - 17 local service companies and several long distance carriers.

Natural Resources

Agricultural rankings (1988) - 11th in the nation in wheat production; 4th in barley; 8th in sugar beets; 7th in beef cows; 6th in sheep and lambs; and 5th in wool production. *Lumber production* (1989) - 1,552 million board feet. *Oil and gas production* (1988) - 20,703,960 BBL oil; 37,092,980 MCF natural gas. *Coal production* (1989) - 37.7 million tons.

Tax Structure

Basic taxes - personal income, corporate income, mineral, non-mineral property. **No sales or use tax.** *Taxes on individuals* - state income taxes were $24.40 per $1,000 of personal income, compared to national average of $24.34. *Corporate income tax* - 6.75%; ranks 20th of 45 states having corporate income tax.

Education

Elementary and secondary schools (1989) - 769. Average expenditure per pupil - $4,246. National average - $4,223. ACT composite score, 1989 - 19.8. National average - 18.6. *Institutions of higher education* - 6 public universities and colleges; 3 independent colleges; 3 public community colleges; 5 tribally-controlled community colleges; and 5 vocational-technical schools.

Recreation

National forests - 17 million acres; 3 million in wilderness. *National parks* - 2 (Glacier and Yellowstone). *State forest recreation lands* - 213,000 acres. *Fishing waters* - more than 15,000 miles. *Other* - abundant wildlife, lakes for sailing, challenging golf courses, powder perfect downhill and cross-country skiing areas, snowmobile trails, whitewater, and more.

Health Facilities

Hospitals (1990) - 60. *Long-term care facilities* - 102. *Practicing physicians* (1990) - 1,260. *Practicing dentists* (1990) - 452.

MONTANA

PROGRAM OUTLINE
MONTANA DEPARTMENT OF COMMERCE
BUSINESS DEVELOPMENT DIVISION (BDD)

The Department of Commerce's Business Development Division provides the business community with consulting, training and information in the areas of finance, marketing, exporting, data management, government contracting, community development, and business licensing.

■ SMALL BUSINESS DEVELOPMENT CENTER (SBDC)

The Business Development Division administers the Small Business Development Center (SBDC) program, a project jointly funded by the Montana Department of Commerce and the U.S. Small Business Administration under Cooperative Agreement SB-2M-00137-04. The Montana SBDC's goal is to increase business profits and employment in Montana by assisting in small business firms' start-up and expansion. The SBDC accomplishes this objective by providing business firms with training, technical assistance, and information through its statewide network of SBDC service centers, which operate as partnerships between the Montana SBDC and regional host organizations. This statewide approach to business development improves the effectiveness and efficiency of both state and local business assistance efforts.

- **BUSINESS INFORMATION SYSTEM (BIS)**
  BIS Data Line 444-4457
  David Elenbaas 444-2463

  The Business Information System (BIS) is a 24-hour electronic bulletin board accessible without charge to anyone with a personal computer, a modem, and communications software. The BIS posts a wide variety of economic, demographic, and business data, including state and federal government bid solicitations, export trade opportunity leads from the U.S. Department of Commerce, and population, income, and employment statistics for Montana cities and counties.

- **LICENSING INFORMATION AND BUSINESS ADVOCACY**
  Becky Baumann 444-4109
  . . . . . (800) 221-8015 (in-state; calls cannot be transferred to other departments)

  The Licensing Information and Business Advocacy office provides prospective business owners with assistance and information on state licensing requirements for starting and operating a business. The office also acts as an advocate for small businesses, helping them resolve questions, complaints, or problems they may encounter in their dealings with state and local government.

- **CERTIFIED COMMUNITIES PROGRAM**
  Jerry Tavegia 444-4780

  The Certified Communities program helps local governments and local development groups organize and maintain their community economic-development efforts. In cooperation with the Montana Ambassadors and the Montana Chamber of Commerce, the program guides cities, towns, counties, and tribal governments in preparing community assessments and action plans and assists them in implementing business-recruitment and business-development programs. The network of Certified Communities receives out-of-state business-relocation leads forwarded by the Department of Commerce and serves as the initial contact for referring clients to SBDC training and counseling.

- **FINANCE TECHNICAL ASSISTANCE**
  Delrene Rasmussen 444-4780
  Gary Faulkner 444-4780
  Daniel Manning . . . . . 752-5222 (Kalispell)

  Under the Finance Technical Assistance program, businesses may receive individual consulting and group training about financial analysis, financial planning, loan packaging, state and private capital sources, and business tax incentives. The program also works with communities, businesses, and financial institutions to encourage them to use various public-sector programs, such as Community Development Block Grants, Economic Development Administration loans and grants, Small Business Administration loan guarantees, the Montana Board of Investments' in-state investment funds, Montana Science and Technology Alliance assistance, the Montana Growth Through Agriculture program, and the Micro-business Finance program.

- **INFORMATIONAL PUBLICATIONS**
  Karen Elliott 444-4780

  In order to promote Montana businesses to audiences both inside and outside the state, the division publishes and distributes the *Montana Exporters Guide* ($5.00), *the Montana Consumer Products Buyers Directory*, the *Montana Manufacturers Directory* ($20.00/floppy disk, $20.00/printed copy), and a variety of other informational publications.

- **GOVERNMENT PROCUREMENT TECHNICAL ASSISTANCE (PTA)**

Greg DePuydt 444-2750
Ralph Steckman . . . . . 245-9989 (Billings)
. . . . . 782-7333 (Butte)
Karl Dehn . . . . . 454-1934 (Great Falls)

Procurement Technical Assistance (PTA) officers help Montana businesses sell their products or services to the federal government, particularly the Department of Defense. PTA officers directly assist businesses with contract opportunity identification, bid and proposal preparation, and post-contract action. In addition to providing computer-generated bidders' list applications and historical market research in government contracting, the program also offers a computer bid match service that searches daily for contract opportunities for subscribing companies.

- **MARKETING ASSISTANCE AND THE MADE IN MONTANA PROGRAM**

Gene Marcille 444-4392
Jim Burns 444-4780
Gary Mariegard 444-4780

Marketing staff members assist individual small businesses and trade associations in packaging, promotion, market analysis, and market strategy. The program also represents Montana manufacturers' products at selected trade shows both in the United States and abroad.

The Made in Montana program works to elevate the status of Montana-made products in the marketplace and to educate Montanans about the diverse products manufactured in their state. Under part of the program, manufacturers of products having at least 50% of their value added in Montana may order and display full-color "Made in Montana" logos, decals, and hang-tags on their goods.

- **MONTANA AMBASSADORS**

Becky Baumann 444-4109

Operating as a private-sector membership organization consisting of approximately 180 business and university leaders from throughout the state, the Montana Ambassadors program complements the department's business-location, business-retention, marketing, and Montana-promotion efforts. The Ambassadors also assist the division in its business-recruitment projects, help Montana

manufacturers market their products outside the state, and help host foreign visitors and trade delegations. The program is funded by its members and staffed by the Department of Commerce.

■ LOCATION AND LOAN ADMINISTRATION

- **CDBG ECONOMIC DEVELOPMENT PROGRAM**
  Gary Morehouse 444-2787

  The CDBG Economic Development program administers Community Development Block Grant funding for local economic-development projects. This federally funded, competitive grant program awards approximately $1.3 million annually to Montana cities, towns, and counties for lending to private business projects. The division reviews applications from local governments and selects projects for funding based on a number of criteria, including project feasibility, economic impact, and job creation for low-to-moderate-income persons. The CDBG program also administers a $1.14 million revolving loan fund consisting of Economic Development Administration (EDA) and CDBG funds.

- **LOCATION AND BUSINESS RECRUITMENT**
  Rick Jones 444-3923

  The Business Location and Recruitment program publicizes and represents Montana to firms considering relocations or expansions in Montana. It also initiates and develops relations with target industries and individual firms and prepares location data in response to inquiries about such topics as taxation, labor supply and wages, vendor support, available sites and facilities, and state and local assistance programs. In performing these functions, the location office works closely with local development organizations as they attempt to recruit new firms.

- **MICRO-BUSINESS FINANCE**
  Micro-business program officer . . . 444-4780

  The Micro-Business Finance program capitalizes a network of regional non-profit micro-business development companies (MBDCs) that may directly lend up to $20,000 to individual Montana companies with fewer than 10 employees and annual gross revenues under $500,000. In addition to providing their clients with initial pre-loan assistance in the areas of business management, business planning, and loan proposal writing, MBDCs also offer continuing post-loan oversight to help ensure their borrowers' success. The departmentally-regulated MBDCs will make their first micro-business loans in early 1992.

- **MONTANA CAPITAL COMPANIES**
  Gary Morehouse 444-2787

  The Location and Loan Administration Bureau also administers provisions of the Montana Capital Companies Act, a program designed to provide the state's small businesses with private venture or equity capital. Previously, the act gave investors in a number of certified capital companies up to a 50% tax credit for investing in small, basic Montana firms. However, the 52nd Legislature reserved all the remaining tax credits for a single Montana Small Business Investment Capital Company (MSBICC). Using this $1.9 million in tax credits should result in $3.8 million in private funds and at least $1 million in Small Business Administration funds invested in Montana's economy. In amending the Montana Capital Company Act, the Legislature charged the Department of Commerce with monitoring the MSBICC's operations and screening the investments of existing certified capital companies.

■ INTERNATIONAL TRADE

Matthew Cohn	444-3923	International Trade Division Director, Pacific Rim and East Asia Desk
Moe Wosepka	444-3923	Trade Officer, Canada, Europe, and the Americas Desk
Pat Owen	444-3111	Protocol Officer, Attached to the Governor's Office
Tammi Lanning	444-3923	International Trade Program Specialist

The International Trade program works to increase Montana's export sales and its volume of international visitors, tourism, and inward investment. The program serves mainly small and medium-sized firms new to the international market with cross-cultural and technical guidance. The International Trade program functions as a "matchmaker," providing contacts, research, and market information to help Montana companies capitalize on foreign trade opportunities. In addition to its state offices in Tokyo and Kumamoto, Japan, and Taipei, Taiwan, the trade program also maintains an office in Calgary, Canada.

■ OFFICE OF RESEARCH AND INFORMATION SERVICES (ORIS)

Jan Clack 444-3814

The Office of Research and Information Services (ORIS) serves the economic-development efforts of both the department and Montana's general economic community by maintaining a comprehensive, centralized, and accessible source of demographic and economic information. ORIS also provides staff and research support for special departmental projects and monitors Montana's economy.

• CENSUS AND ECONOMIC INFORMATION CENTER (CEIC)

Patricia Roberts 444-2896

The Census and Economic Information Center (CEIC) maintains a specialized library that distributes demographic, economic, and business information to government entities, the business community, educational institutions, and the public. The CEIC acts as the lead agency for the Montana State Data Center program and also serves as Montana's primary contact with the U.S. Census Bureau. Additionally, the CEIC publishes *County Profiles*, reports including data on health, education, housing, and other economic and statistical indicators for Montana's counties.

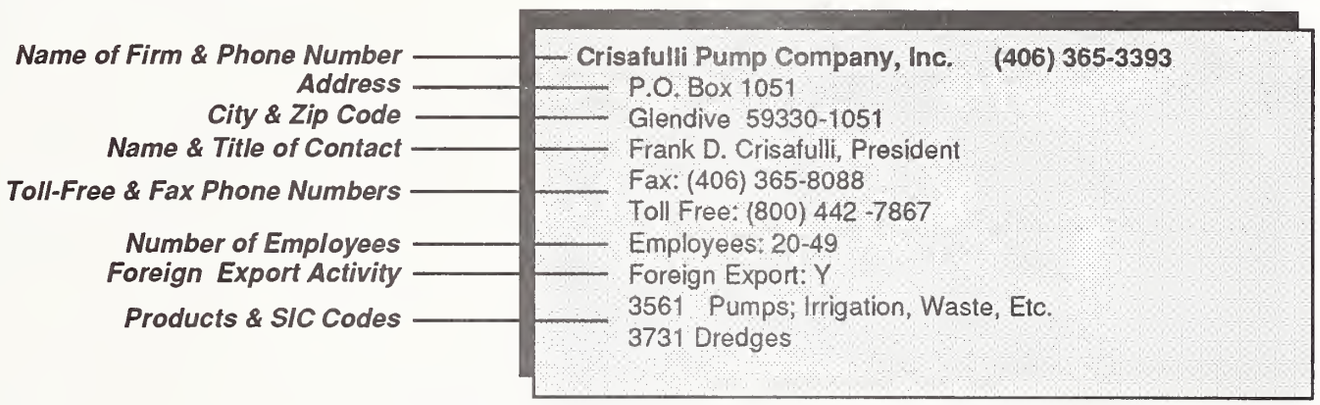
How To Use This Directory

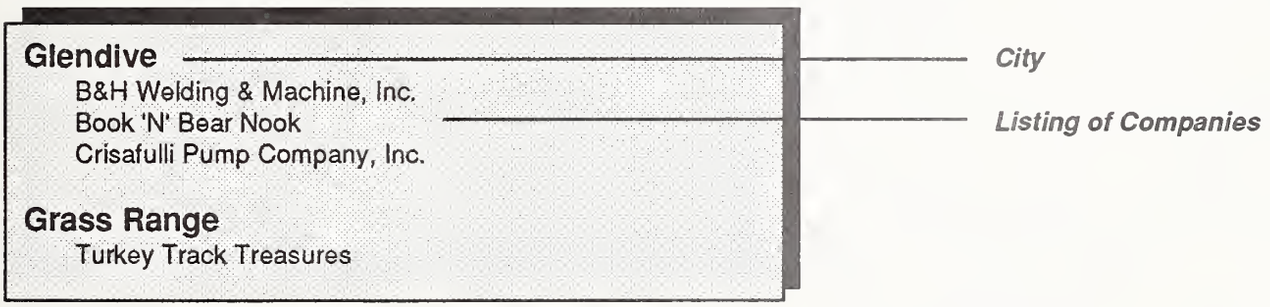
SECTION I ALPHABETIC LISTING (Blue Pages)

The blue pages alphabetically list the names of Montana manufacturing companies. Each listing includes a company's mailing address; its voice, fax, and toll-free phone numbers; a key contact person and his or her position; the number of employees working for the company; the firm's foreign export activity; and the type of products it manufactures, as represented by a four-digit Standard Industrial Classification (SIC) code. (SIC, 1987 revision)



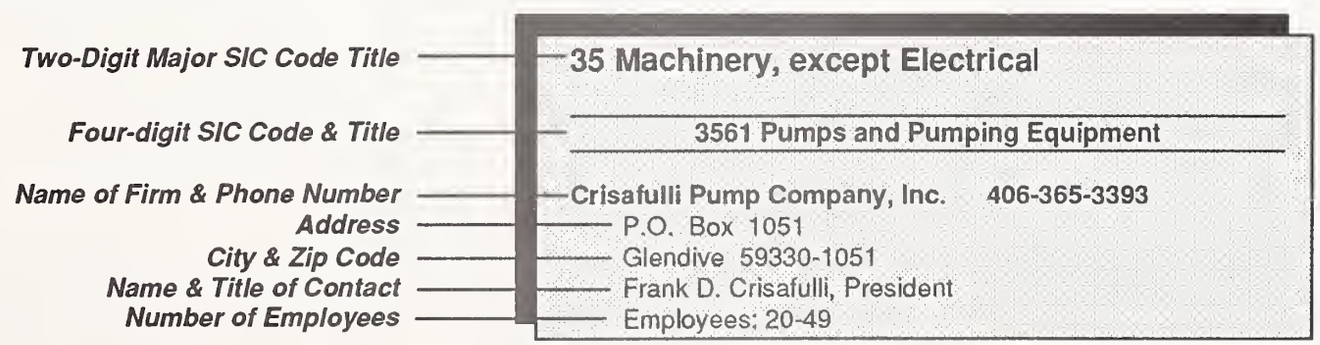
SECTION II GEOGRAPHIC LISTING (Pink Pages)

The pink section alphabetically lists manufacturing companies within or near a listed city or town. The cities and towns themselves also appear alphabetically.



SECTION III PRODUCT LISTING BY SIC CODE (Yellow Pages)

The yellow section lists manufactured products by their four-digit SIC codes, which are classified under their corresponding two-digit major SIC titles. A description of the Major Group Titles of Industries (1987 revision) appears at the end of the section. Individual companies appear alphabetically under the four-digit classification code that best describes their products. Each listing includes the firm's name, its address, its phone number, a contact person, and the range of employees working for the company at the time of the survey.



Alphabetic Section

Major Group Titles and Descriptions of Industries— The Standard Industrial Classification of Establishments— Manufacturing & Mining

Major Group 20. — FOOD AND KINDRED PRODUCTS

This major group includes establishments manufacturing or processing foods and beverages for human consumption, and certain related products, such as manufactured ice, chewing gum, vegetable and animal fats and oils, and prepared feeds for animals and fowls. Products described as dietetic are classified in the same manner as nondietetic products (e.g., as candy, canned fruits, cookies). Chemical sweeteners are classified in Major Group 28.

Major Group 21. — TOBACCO PRODUCTS

This major group includes establishments engaged in manufacturing cigarettes, cigars, smoking and chewing tobacco, snuff, and reconstituted tobacco and in stemming and redrying tobacco. Also included in this major group is the manufacture of nontobacco cigarettes. The manufacture of insecticides from tobacco byproducts is included in Major Group 28.

Major Group 22. — TEXTILE MILL PRODUCTS

This major group includes establishments engaged in performing any of the following operations: (1) preparation of fiber and subsequent manufacturing of yarn, thread, braids, twine, and cordage; (2) manufacturing broadwoven fabrics, narrow woven fabrics, knit fabrics, and carpets and rugs from yarn; (3) dyeing and finishing fiber, yarn, fabrics, and knit apparel; (4) coating, waterproofing, or otherwise treating fabrics; (5) the integrated manufacture of knit apparel and other finished articles from yarn; and (6) the manufacture of felt goods, lace goods, nonwoven fabrics, and miscellaneous textiles.

This classification makes no distinction between the two types of organizations which operate in the textile industry: (1) the integrated mill which purchases materials, produces textiles and related articles within the establishment, and sells the finished products; and (2) the contract or commission mill which processes materials owned by others. Converters or other nonmanufacturing establishments which assign materials to contract mills for processing, other than knitting, are classified in nonmanufacturing industries; establishments which assign yarns to outside contractors or commission knitters for the production of knit products are classified in Industry Group 225.

Major Group 23. — APPAREL AND OTHER FINISHED PRODUCTS MADE FROM FABRICS AND SIMILAR MATERIALS

This major group, known as the cutting-up and needle trades, includes establishments producing clothing and fabricating products by cutting and sewing purchased woven or knit textile fabrics and related materials, such as leather, rubberized fabrics, plastics, and furs. Also included are establishments that manufacture clothing by cutting and joining (for example, by adhesives) materials such as paper and nonwoven textiles. Included in the apparel industries are three types of establishments: (1) the regular or inside factories; (2) contract factories; and (3) apparel jobbers. The regular factories perform all of the usual manufacturing functions within their own plant; the contract factories manufacture apparel from materials owned by others; and apparel jobbers perform the entrepreneurial functions of a manufacturing company, such as buying raw materials, designing and preparing samples, arranging for the manufacture of clothing from their materials, and selling of the finished apparel.

Knitting mills are classified in Industry 2253 if primarily knitting outerwear, and in Industry 2254 if primarily knitting underwear and nightwear. Custom tailors and dressmakers not operating on a factory basis are classified in Retail Trade, Industry 5699; and establishments which purchase and resell finished garments but do not perform the functions of the apparel jobbers are classified in Wholesale Trade, Industry Group 513.

Major Group 24. — LUMBER AND WOOD PRODUCTS, EXCEPT FURNITURE

This major group includes establishments engaged in cutting timber and pulpwood; merchant sawmills, lath mills, shingle mills, cooperage stock mills, planing mills, and plywood mills and veneer mills engaged in producing lumber and wood basic materials; and establishments engaged in manufacturing finished articles made entirely or mainly of wood or related materials. Certain types of establishments producing wood products are classified elsewhere. For example, furniture and office and store fixtures are classified in Major Group 25; musical instruments, toys and playground equipment, and caskets are classified in Major Group 39. Woodworking in connection with construction, in the nature of reconditioning and re-

pair, or performed to individual order, is classified in nonmanufacturing industries. Establishments engaged in integrated operations of logging combined with sawmills, pulp mills, or other converting activity, with the logging not separately reported, are classified according to the primary product shipped.

Major Group 25. — FURNITURE AND FIXTURES

This major group includes establishments engaged in manufacturing household, office, public building, and restaurant furniture; and office and store fixtures. Establishments primarily engaged in the production of millwork are classified in Industry 2431; those manufacturing wood kitchen cabinets are classified in Industry 2434; those manufacturing cut stone and concrete furniture are classified in Major Group 32; those manufacturing laboratory and hospital furniture, except hospital beds, are classified in Major Group 38; those manufacturing beauty and barber shop furniture are classified in Major Group 39; and those engaged in woodworking to individual order or in the nature of reconditioning and repair are classified in nonmanufacturing industries.

Major Group 26. — PAPER AND ALLIED PRODUCTS

This major group includes establishments primarily engaged in the manufacture of pulps from wood and other cellulose fibers, and from rags; the manufacture of paper and paperboard; and the manufacture of paper and paperboard into converted products, such as paper coated off the paper machine, paper bags, paper boxes, and envelopes. Also included are establishments primarily engaged in manufacturing bags of plastics film and sheet. Certain types of converted paper products are classified elsewhere, such as abrasive paper which is in Industry 3291; carbon paper in Industry 3955; and photosensitized and blueprint paper in Industry 3861.

Major Group 27. — PRINTING, PUBLISHING, AND ALLIED INDUSTRIES

This major group includes establishments engaged in printing by one or more common processes, such as letterpress; lithography (including offset), gravure, or screen; and those establishments which perform services for the printing trade, such as bookbinding and platemaking. This major group also includes establishments engaged in publishing newspapers, books, and periodicals, regardless of whether or not they do their own printing. News syndicates are classified in Services, Industry 7383. Establishments primarily engaged in textile printing and finishing fabrics are classified in Major Group 22, and those engaged in printing and stamping on fabric articles are classified in Industrys 2396. Establishments manufacturing products that contain incidental printing, such as advertising or instructions, are classified according to the nature of the products—for example, as cartons, bags, plastics film, or paper.

Major Group 28. — CHEMICALS AND ALLIED PRODUCTS

This major group includes establishments producing basic chemicals, and establishments manufacturing products by predominantly chemical processes. Establishments classified in this major group manufacture three general classes of products: (1) basic chemicals, such as acids, alkalies, salts, and organic chemicals; (2) chemical products to be used in further manufacture, such as synthetic fibers, plastics materials, dry colors, and pigments; and (3) finished chemical products to be used for ultimate consumption, such as drugs, cosmetics, and soaps; or to be used as materials or supplies in other industries, such as paints, fertilizers, and explosives. The mining of natural alkalies and other natural potassium, sodium, and boron compounds, of natural rock salt, and of other natural chemicals and fertilizers are classified in Mining, Industry Group 147. Establishments primarily engaged in manufacturing nonferrous metals and high-percentage ferroalloys are classified in Major Group 33; those manufacturing silicon carbide are classified in Major Group 32; those manufacturing baking powder, other leavening compounds, and starches are classified in Major Group 20; and those manufacturing artists; colors are classified in Major Group 39. Establishments primarily engaged in packaging, repackaging, and bottling of purchased chemical products, but not engaged in manufacturing chemicals and allied products, are classified in Wholesale or Retail Trade industries.

Major Group 29. — PETROLEUM REFINING AND RELATED INDUSTRIES

This major group includes establishments primarily engaged in petroleum refining, manufacturing paving and roofing materials, and compoundiung lubricating oils and greases from purchased materials. Establishments manufacturing and distributing gas to consumers are classified in public utilities industries, and those primarily engaged in producing coke and by-products are classified in Major Group 33.

Major Group 30. — RUBBER AND MISCELLANEOUS PLASTICS PRODUCTS

This major group includes establishments manufacturing products, not elsewhere classified, from plastics resins and from natural, synthetic, or reclaimed rubber, gutta percha, balata, or gutta siak. Numerous products made from these materials are included in other major groups, such as boats in Major Group 37, and toys, buckles, and buttons in Major

Group 39. This group includes establishments primarily manufacturing synthetic rubber and synthetic plastics resins are classified in Industry Group 282.

Major Group 31. — LEATHER AND LEATHER PRODUCTS

This major group includes establishments engaged in tanning, currying, and finishing hides and skins, leather converters, and establishments manufacturing finished leather and articifical leather products and some similar products made of other materials.

Major Group 32. — STONE, CLAY, GLASS, AND CONCRETE PRODUCTS

This major group includes establishments engaged in manufacturing flat glass and other glass products, cement, structural clay products, pottery, concrete and gypsum products, cut stone, abrasive and asbestos products, and other products from materials taken principally from the earth in the form of stone, clay, and sand. When separate reports are available for mines and quarries operated by manufacturing establishments classified in this major group, the mining and quarrying activities are classified in Division B, Mining. when separate reports are not available, the mining and quarrying activities, other than those of Industry 3295, are classified herein with the manufacturing operations.

If separate reports are not available for crushing, grinding, and other preparation activities of Industry 3295, these establishments are classified in Division B, Mining.

Major Group 33. — PRIMARY METAL INDUSTRIES

This major group includes establishments engaged in smelting and refining ferrous and nonferrous metals from ore, pig, or scrap; in rolling, drawing, and alloying metals; in manufacturing castings and other basic metal product; and in manufacturing nails, spikes, and insulated wire and cable. This major group includes the production of coke. Establishments primarily engaged in manufacturing metal forgings or stampings are classified in Industry Group 346.

Major Group 34. — FABRICATED METAL PRODUCTS, EXCEPT MACHINERY AND TRANSPORTATION EQUIPMENT

This major group includes establishments engaged in fabricating ferrous and nonferrous metal products, such as metal cans, tinware, handtools, cutlery, general hardware, nonelectric heating apparatus, fabricated structural metal products, metal forgings, metal stampings, ordnance (except vehicles and guided missiles), and a variety of metal and wire products, not elsewhere classified. Certain important segments of the metal fabricating industries are classified in other major groups, such as machinery in Major Groups 35 and 36; transportation equipment, including tanks, in Major Group 37; professional scientific and controlling instruments, watches, and clocks in Major Group 38; and jewelry and silverware in Major Group 39. Establishments primarily engaged in producing ferrous and nonferrous metals and their alloys are classified in Major Group 33.

Major Group 35. — INDUSTRIAL AND COMMERCIAL MACHINERY AND COMPUTER EQUIPMENT

This major group includes establishments engaged in manufacturing industrial and commercial machinery and equipment and computers. Included are the manufacture of engines and turbines; farm and garden machinery; construction, mining, and oil field machinery; elevators and conveying equipment; hoists, cranes, monorails, and industrial trucks and tractors; metalworking machinery; special industry machinery; general industrial machinery; computer and preipheral equipment and office machinery; and refrigeration and service industry machinery. Machines powered by built-in or detachable motors ordinarily are included in this major group, with the exception of electrical household appliances. Power-driven handtools are included in this major group, whether electric or otherwise driven. Establishments primarily engaged in manufacturing electrical equipment are classified in Major Group 36, and those manufacturing handtools, except powered, are classified in Major Group 34.

Major Group 36. — ELECTRONIC AND OTHER ELECTRICAL EQUIPMENT AND COMPONENTS, EXCEPT COMPUTER EQUIPMENT

This major group includes establishments engaged in manufacturing machinery, apparatus, and supplies for the generation, storage, transmission, transformation, and utilization of electrical energy. Included are the manufacturing of electricity distribution equipment; electrical industrial apparatus; household appliances; electrical lighting and wiring equipment; radio and television receiving equipment; communications equipment; electronic components and accessories; and other electrical equipment and supplies. The manufacture of household appliances is included in this group, but industrial machinery and equipment powered by built-in or detachable electric motors is classified in Major Group 35. Establishments primarily engaged in manufacturing instruments are classified in Major Group 38.

Major Group 37. — TRANSPORTATION EQUIPMENT

This major group includes establishments engaged in manufacturing equipment for transportation of passengers and cargo by land, air, and water. Important products produced by establishments classified in this major group include motor vehicles, aircraft, guided missiles and space vehicles, ships, boats, railroad equipment, and miscellaneous transportation equipment, such as motorcycles, bicycles, and snowmobiles. Establishments primarily engaged in manufacturing mobile homes are classified in Industry 2461. Establishments primarily engaged in manufacturing equipment used for moving materials on farms; in mines and on construction sites; in individual plants; in airports; or on other locations off the highway are classified in Major Group 35.

Major Group 38. — MEASURING, ANALYZING, AND CONTROLLING INSTRUMENTS; PHOTOGRAPHIC, MEDICAL AND OPTICAL GOODS; WATCHES AND CLOCKS

This major group includes establishments engaged in manufacturing instruments (including professional and scientific) for measuring, testing, analyzing, and controlling, and their associated sensors and accessories; optical instruments and lenses; surveying and drafting instruments; hydrological, hydrographic, meteorological, and geophysical equipment; search, detection, navigation, and guidance systems and equipment; surgical, medical, and dental instruments, equipment, and supplies; ophthalmic goods; photographic equipment and supplies; and watches and clocks.

Major Group 39. — MISCELLANEOUS MANUFACTURING INDUSTRIES

This major group includes establishments primarily engaged in manufacturing products not classified in any other manufacturing major group. Industries in this group fall into the following categories; jewelry, silverware, and plated ware; musical instruments; dolls, toys, games, and sporting and athletic goods; pens, pencils, and artists' materials; buttons, costume novelties, miscellaneous notions; brooms and brushes; caskets; and other miscellaneous manufacturing industries.
